

Digital Graphics SA is a Belgian company founded twenty years ago close to Liège in Wallonia.

Our mission is to offer services and quality products for most stages of the animation and visual effects making process, and to develop innovative software solutions to achieve a gain of creativity, flexibility and efficiency at a reduced cost. Today, a talented team of ten employees and about twenty freelancers is working on specific projects.

Digital Graphics has worked on more than 80 films, including 33 feature films. Many of these films received awards or recognitions, including four Oscar Nominations, two Cesars and one European Award. We also offer opportunities for tax deduction thanks to the Tax-Shelter mechanism.
